

RETRACTABLE SHADING SYSTEMS

MOTORIZED RETRACTABLE SYSTEM

GREAT PROTECTION FOR ANY AREA

ROOF TOP SYSTEM

SOLAR PROTECTION

- The Eclipse SunRoof Plus is the ideal solution for many residential and commercial applications. This rugged and durable shading system is designed to provide solar protection even in windy situations. With proper pitch (minimum of 15 degrees) this system can also provide protection from light rains.
- The versatile design of this shading system will allow you to solve your sun issues over sunrooms, pergolas and open outdoor areas.

GREAT FOR ALL OUTDOOR AREAS

PROTECTION AGAINST THE SUN

STOP THE SUN'S HEAT

THE ECLIPSE SHADING SYSTEM CLOSED

THE ECLIPSE SHADING SYSTEM OPEN

REMOTE OR SWITCH CONTROL

MOTORIZED FOR EASY OPERATION

The SunRoof Plus features a UL listed motor and electronic controls. This allows you to operate your shading system safely and effortlessly with either a wireless wall switch or handheld remote control. To further increase the effectiveness of your SunRoof Plus, we offer a selection of electronic controls including a lunar lighting system for twilight and evening use.

VERSATILITY AND PERFORMANCE

VERSATILITY AND PERFORMANCE

EASY OPERATION

The SunRoof Plus will allow you to create shade for almost any application. This unit incorporates pneumatic, gas filled struts that apply outward tension on the fabric allowing you to create a safe haven from the sun with a touch of a button. When not in use, the fabric is rolled up and safely stored inside the protective, powder coated aluminum cassette housing.

LUNAR LIGHTING SYSTEM

Rope style lighting that mounts to the underside of your shading system's framework, providing a soft moonlight glow – perfect for evening entertaining or dining. These UL listed lights are safe for outdoor use and are designed not to attract bugs.

OPEN MESH

If you desire to use the SunRoof Plus in light rains, the unit will require 15 degrees of pitch or greater plus include a 8" open mesh section of fabric to allow the rain water to escape. This section of fabric is located right behind the front bar. To avoid water falling on your guests, the SunRoof Plus can be cantilevered up to 3' past the front posts.

FRONT MOUNTED RETRACTABLE SHADE SCREENS

Reduce sun glare and direct sun heat with retractable shade screens. With a touch of a button, these motorized equipped screens can also block rain and the wind, increasing the use of your outdoor room.

HARDWARE TO MATCH YOUR DÉCOR

Eclipse offers three architecturally pleasing colors to either match or accentuate your home. Our pretreated powder coated finishes are second to none in durability and appearance.

WHITE

CAMEL

BROWN

FROM SERENE TO STUNNING, WE HAVE THE FABRIC FOR YOU

Eclipse offers over 150 long lasting, 100% acrylic fabrics from which to choose. Our covers are computer cut and sewn to create a superior fitted awning. We use the finest Tenera thread allowing us to offer you a 10 year warranty on the complete fabric cover.

FLAME RESISTANT FABRICS AVAILABLE TOO

For commercial applications, or when a certified flame resistant fabric is required, Eclipse offers a wide variety of color fabrics that will match your decor while keeping your shading system within these legal parameters. Each unit with these fabrics will ship with the official certified paperwork.

THE NEXT GENERATION IN SHADING

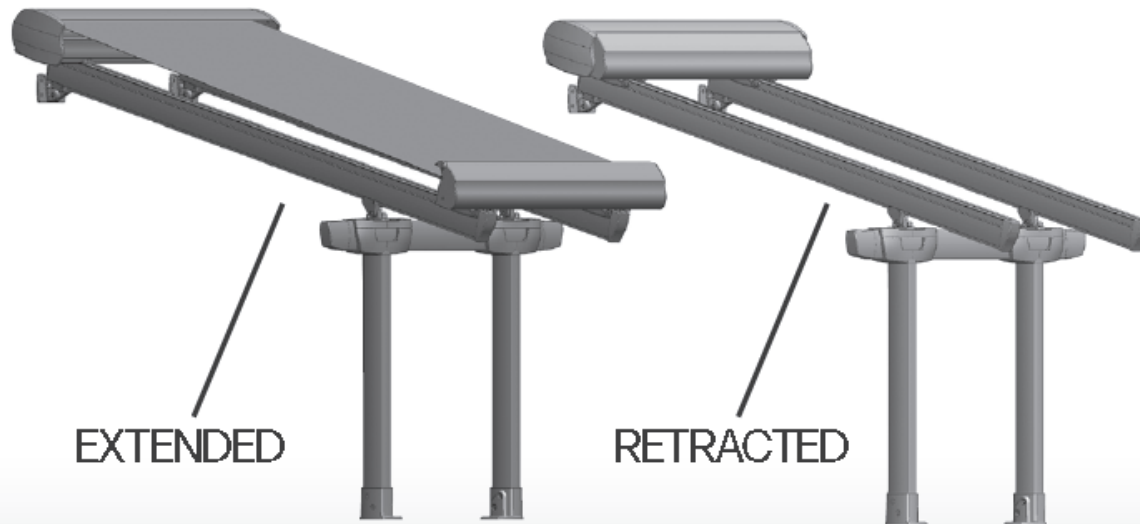

THE PERFECT COMPLEMENT TO YOUR OUTDOOR LIVING SPACE

The Eclipse SunRoof Plus is the ideal solution for many residential and commercial applications. This system is designed for windy areas and will provide protection from rain when properly installed with the light rain package. The unique design of the shading system, with up to 19'8" projection, allows the SunRoof Plus to solve your sun problem in many applications where a normal retractable awning is just not the answer. When not in use, a simple press of a button fully retracts the fabric inside the aluminum cassette housing.

AVAILABLE IN TWO STYLES: PATIO AND PERGOLA

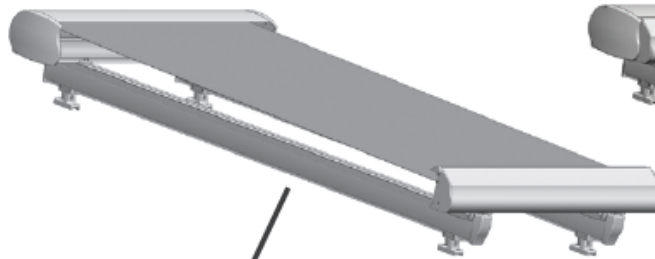

PATIO STYLE

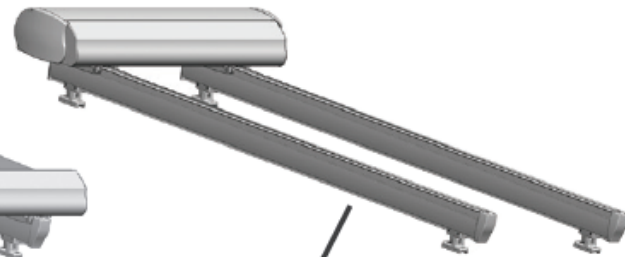

The **Patio Style** is designed to attach to an existing wall and incorporates a front cross member and matching powder coated aluminum posts.

AVAILABLE IN TWO STYLES: PATIO AND PERGOLA

PERGOLA STYLE
